May 9, 2025

Dear Customers

The United States government has introduced tariffs on imports from multiple countries.

The majority of Laffort products, like many other suppliers of winemaking ingredients, are imported from the EU and as such will be subject to these tariffs.

Commencing May 15, 2025, we will be introducing a 7% tariff surcharge on products except for the following:

Nobile Oak Products – no tariff

Polyclar Products – no tariff

Respectfully,

Shaun Richardson
General Manager
