

# Malolactic Bacteria Protocol

LACTOENOS® DIRECT

## DIRECT INOCULATION

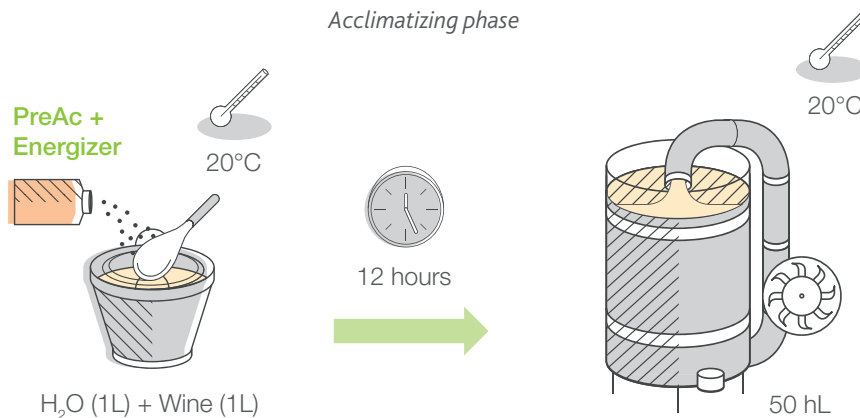

- Early co-inoculation  
*24 - 48 h after start of AF.*
- Late co-inoculation  
*0 - 4 Brix.*
- Sequential inoculation  
*After AF, on running off.*
- Curative inoculation

## INOCULATION WITH ACCLIMATIZATION

LACTOENOS® PREAC

### LATE CO-INOCULATION or SEQUENTIAL INOCULATION

*Acclimatizing phase*

### Specific case : EARLY CO-INOCULATION

*Preparation step*
